METHODOLOGY

- Source: S-1, S-3, F-1, F-3, 424B prospectuses, resale registrations and offering 8-Ks on SEC EDGAR, read by SEC Tracker as they are filed.
- Small cap means a public float under $300M on the company's latest 10-K cover page; companies that state no float are left out of the headline and counted in the size table.
- New shares are shares offered over shares outstanding before the offering, both as the filing states them. Discount is the offering price against the last sale price the filing states. Nothing here uses market data.
- A filing SEC Tracker could not classify is counted as type not identified, never guessed.
